

# GATEWAY TO THE ARTS PRESENTS:

Art can do many things, it spreads joy, makes people think about the world around them, it can heal hurts, it can tell stories, it can raise funds for various things, it can improve the world we live in one color at a time.

Over the course of this week children will create art and see how it can brighten up the world they live in through various community based initiatives.

## Programming includes:

- Crafts that inspire community service (i.e planters and sun catchers for nursing homes)
- Outdoor time (Splashpad and playground)
- Independent craft exploration time
- Lesson about the history of our city
- Special Friday lunch (North Bay Inspired)
