Parking & Security Meeting

Brent Kalinowski, Kevin Vescio, Bruce Robertson, Rod Bilz, Bev Hillier, David Jackowski, Brannyn Hale, Ray Ladouceur and Amber Livingstone.

Regrets: Russ Moyer

Additional CNB security 7am in Lot 4.

POST- potential shift changes 12-8pm with additional resources at 8am. Brent will advise when the change happens. 2 outreach workers now instead of one with a security person. Program extension until Oct. 30th.

Brannyn Hale: What's involved with giving the city access to security cameras that our members install. For example, if we put one on the back of the Farm that faces the parking garage and gave access to the city to monitor the camera, would they be permitted to do so under privacy laws would that fall? We really would like these cameras to be effective and the more eyes we have monitoring them, the more realistic it is to expect we can prevent some offences from occurring.

CNB is unable to monitor any cameras as they must follow MFIPPA legislation.

Brannyn Hale: When do we get to meet the new police chief? we need to get him on board with downtown improvement while he's still fresh in the position.

Invite him to a Board meeting, or to a working meeting to connect and introduce the Board to him.

Question for Katie Bevan: CHCI electrical requirements. How much electrical will the project need?

Skate Park construction May through. October 2024
